

The plot shows the D/L rate (kBytes/S) on the y-axis (0 to 600) against the Date on the x-axis. The x-axis spans from 2007-10-04 00:00:00 to 2007-10-11 00:00:00. A single data point is plotted as a red '+' at approximately 2007-10-05 00:00:00 with a rate of about 80 kBytes/S. A red label '2007_1004_233001' is located in the top right corner of the plot area.
